<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 0.86 million
<b>Project Cost (USD)</b>	\$ 3.35 million

---

### Project Description

This project seeks to comprehensively address these challenges by supporting the development of innovative world-class software and hardware solutions in Temuco that take advantage of the business and access opportunities offered by Smart Cities. The idea is thus to train specialized workers and generate opportunities for entrepreneurship and innovation for both established businesses and entrepreneurs, all underpinned by an open IT platform that will manage and provide information on the city, thereby fostering the technological integration of the solutions developed without requiring the city to make major investments. These efforts are designed to be replicated by the IDB Group in other cities in the region.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
