Borrower	Government of Chile
Sectors	Agriculture and Forestry, Climate and Environment, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.83 million
Project Cost (USD)	\$ 2.20 million

Project Description

The project's objective is to pilot the use of exponential technologies in the monitoring and evaluation of forest ecosystems and land use in Chile, to support reporting against national commitments and results-based investment mechanisms, improve the effectiveness of Chile's forest interventions, and to leverage potential new public and private investments through a pilot of a future unit-based investment mechanism.

Investment Description

- Inter-American Development Bank (IADB)

Multilateral Investment Fund II (MIF) -

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
