IADB-CH-T1222

Quick Facts

Countries	Chile
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2019-11-21
Borrower	Government of Chile
Sectors	Technical Cooperation
Investment Type(s)	Grant
Project Cost (USD)	$ 0.70 million

Project Description

The general objective of this Technical Cooperation (TC) is to conduct feasibility studies to support future investment in the deployment of new fiber-optic rings in the case of Chile. Particularly, these feasibility studies aim to explore market (including demography), forecast demand, identify the best cable routes, design the network, prepare its specifications and develop the technical, financial, and managerial studies of the network. In addition, this TC will suggest possible application areas, which will make the full use of developed infrastructure, which respective countries might want to focus on by studying the experience of Korean organizations.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
