| Project Cost (USD)     | \$ 0.25 million                          |

## Project Description

The objective of this Technical Cooperation (TC) is to give support to the Government of Chile (GoCh) through the Ministry of Energy (MINENERGIA) for the modernization of the energy sector with a citizen-based approach following the commitments and priorities set forth in Chile's Energy Roadmap 2018-2022.

Energy institutional strengthening and capacity building

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
