Uvi Shield - Delivery System with Portable UVC Disinfection

IADB-CH-T1245

Quick Facts

Countries	Chile
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2020-06-06
Borrower	Government of Chile
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.14 million
Project Cost (USD)	$ 0.32 million

Project Description

The project is to develop a rapid portable disinfection system based on UVC light together with a simple, inexpensive and disposable system for verifying the dose applied to the treated surfaces, for monitoring the disinfection of food or medicine packages transported by delivery system. . In addition, the system includes a security protocol that protects both customers and dealers for the transport of goods, which promotes self-care and prevents the spread of the virus.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
