Countries	Chile
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Chile
Sectors	Education and Health, Technical Cooperation
Investment Amount (USD)	$ 0.50 million

Project Description

The objective of this TC is to contribute to the development of a technological platform that based on machine learning allows linking the interests and demands of people and organizations. In other words, it aims at designing a technological platform called "Intelligent Labor Retraining" or RELINT (in Spanish), based on a data intelligence model that allows companies and individuals to be guided in the process of retraining. On the one hand, supporting companies in a digital transformation process by introducing reskilling, upskilling and outplacement mechanisms and, on the other hand, allowing workers to improve their skills for a new type of company or to start a new labor route . This is done by linking interests, experience and employability potential with the demand that the market is requesting for new skills derived from the ongoing digital transformation.

Investment Description

- Inter-American Development Bank (IADB)

The invstment description was not available at the moment of the snapshot.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
