Early Warning System

Women's agenda post 2020

IADB-CH-T1252

Quick Facts

Countries	Chile
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Chile
Sectors	Technical Cooperation
Investment Type(s)	Grant
Grant Amount (USD)	$ 0.20 million
Project Cost (USD)	$ 0.20 million

Project Description

The objective of this technical cooperation is to promote a cross-cutting gender agenda. The specific objectives are: (i) promote the employability of women towards quality jobs, promoting the development of digital skills; and (ii) support the improvement of the articulated response capacity for the prevention and care of violence against women in all its expressions, particularly through strengthening the work with the institutional circuit of response to violence.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
