Support to the strengthening of the scientific and technological offer in a post pandemic context

Support to the strengthening of the scientific and technological offer in a post pandemic context

Quick Facts

Countries	Chile
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Government of Chile
Sectors	Technical Cooperation
Investment Amount (USD)	$ 0.15 million

Project Description

The main objective of the non-reimbursable technical cooperation will be to support the strengthening of a scientific-technological offer aimed at developing pertinent solutions to problems derived from the pandemic, through: (i) the development of a mission-oriented vision of science within the Chilean technological scientific system; (ii) characterize higher education institutions on their capacities to implement a mission-oriented science framework; (iii) support for the design of a science-technology-based entrepreneurship program at the Ministry of Science, Technology, Knowledge and Innovation; and (iv) strengthen female participation in these types of activities.

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
