Investment promotion and Internationalization of new exporting sectors of Chile, for the economic reactivation and the recovery of employment, at the national and subnational levels

Project Description

The general objective of the TC is to provide technical support to the authorities in matters and initiatives related to the internationalization of the country in emerging sectors as tools for the generation of technical and digital talent, territorial diversification of growth, post-pandemic recovery and the economic transformation agenda. Specifically, it will focus on increasing the potential for investment and exporting promotion in sectors with the potential to sophisticate the country's participation in global and regional value chains and the generation of quality jobs.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
