Support for the Strengthening of the Concessions Program in Chile, and lessons learned for Latin America and the Caribbean

Project Description

The main objective of this Non-Reimbursable Technical Cooperation is to support and develop recommendations for strengthening the Chilean Concessions Program in the project preparation, financing and evaluation phases, with a focus on its sustainability and social impact (Component 1). Likewise, as a leading experience in the region, it is also a purpose of this Cooperation to extract lessons learned from the Chilean experience that help strengthen Public-Private Partnerships programs in the rest of the countries of the region (Component 2).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
