<b>Investment Amount (USD)</b>	\$ 0.22 million
<b>Grant Amount (USD)</b>	\$ 0.22 million

## Project Description

The general objective of this TC is (1) to contribute to improving the opportunity in care through the development of digital health in Chile. Its specific objectives are (1) Support the resolution capacity in the health care network establishments in chronic diseases, cancer and other specialties with a high prevalence in women, by reinforcing the model of teleinterconsultations between the Digital Hospital and primary care centers; (2) Facilitate the work of women who are responsible for the primary care of relatives who receive palliative care, especially cancer patients, with advanced, progressive chronic disease, with a limited life expectancy and highly demanding family care; (3) Contribute to the formulation of quality standards for health care with a gender perspective.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
