Support the Transition Program Towards a Carbon Neutral and Resilient Economy

#### **Project Description**

According to the IADB, the general objective of this Technical Cooperation is to support the materialization of the policy measures included in the Transition Program towards a Carbon Neutral and Resilient Economy (CH-L1179), both in its first and second operation. The specific objectives are: (i) to support the policy measures associated with climate planning in all sectors and levels of government (national, regional, municipal); (ii) support the policy measures associated with the strengthening of climate and environmental institutions, specifically in terms of optimization of sectoral permits; and (iii) support policy measures associated with the introduction of regulations that incentivize public and private investments aligned with carbon neutrality and resilience.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
