Project Description

According to the IADB, the aim is to support the design and execution of the CH-L1181 loan operation by strengthening the institutions and mechanisms related to investment attraction, data, and human capital for the global services sector in Chile. This will be achieved by meeting the specific objectives of: (i) modernizing the tools of specialized agencies to streamline investment attraction and export promotion processes, which require innovation and are linked to economic growth and productivity increases; (ii) gathering and analyzing data from the services sector to make adjustments to public policy supporting global services exports, a key sector in the country's productive agenda; (iii) streamlining training processes and developing specific human capital capabilities, which contribute to increasing the country's competitiveness and productivity.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
