Project Description

According to the IADB, the objective of the Technical Cooperation (TC) is the institutional strengthening of the wood-based construction sector, particularly of the Ministry of Housing and Urbanism (MINVU) and the Production Development Corporation (CORFO), to promote sustainable construction in Chile. The specific objectives are: (i) to encourage the sustainable development of the wood and industrialized wood construction industry with a gender perspective to promote equitable participation in the sector; and (ii) to support the formulation of a sustainable bond and other instruments that guide the demand for wood-based social housing.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
