## Project Description

According to the IADB, the objective is to contribute to the modernization of the Chilean public sector through the implementation of digitalization, data, and innovation strategies to improve the efficiency, transparency, and quality of public services. Specifically, this TC will continue supporting the implementation of the Digital Transformation Law, including data governance, and will help strengthen cybersecurity and the development of AI in the public sector. Additionally, it will promote innovation and government management initiatives and improve efficiency and transparency in public administration.

## Investment Description

- Inter-American Development Bank (IADB)

No contacts available at the time of disclosure

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
