Project Description

According to the IADB, the objective of the CT is to finance the impact evaluation of some key dimensions of Operation 5969/OC-CH, 'Chile Global Export Services Program II.' In particular, the evaluation will assess the impact of export promotion and investment attraction support on firms' international integration, as well as the impact of labor training programs on individuals' employability. Since the program is currently in the eligibility stage and is a continuation of Loan 4362/OC-CH, the evaluation will start with the latter, as the data and methodology to be used will be the same and will serve as a basis for subsequently updating the study once 5969/OC-CH is completed or sufficiently advanced to allow for its evaluation. This proposal was submitted to and approved by the Development Effectiveness Intelligence Fund (DEIF)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
