Support to the mid-term evaluation and implementation of the Green Hydrogen Industry Development Support Programme in Chile

Project Description

The general objective of the Technical Cooperation (TC) is to support the implementation of the operation "Support to the Green Hydrogen Industry in Chile" (5757/OC-CH) and to design the methodology for its mid-term evaluation. The specific objectives are: (i) to support actions that strengthen program implementation, with a particular emphasis on Component 1 of the operation; and (ii) to design the methodology for the program's mid-term evaluation, enabling a review of project performance and the identification of areas for improvement in technical, regulatory, institutional, and implementation aspects.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
