Project Description

According to the IADB, the overall objective of this TC is to contribute to strengthening continuity of care and enhancing the management of waiting lists and wait times across Chile's public healthcare network. The specific objectives are to: (i) strengthen the exchange of clinical information among healthcare providers within the healthcare network, thereby promoting continuity of care and improving the quality of clinical data; and (ii) enhance the capacity to manage and prioritize waiting lists and wait times across the healthcare network by promoting the use of standardized information and analytical tools with clinical oversight.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
