Project Description

The general objective of the Technical Cooperation (TC) is to promote the acceleration of investments through the comprehensive improvement of permit authorization systems. The specific objectives are: (i) to optimize environmental authorization processes through the analysis and digitalization of procedures (including PAS and their operational relationship with the SEIA) in order to reduce processing times and bottlenecks without compromising technical rigor; and (ii) to support the implementation of the LMAS.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
