### Project Description

The project aims to bring together relevant stakeholders and strengthen the impact investment ecosystem in Colombia, facilitating access for ventures and initiatives with social and environmental impact to various sources of resources, both financial and technical assistance. It seeks to increase the technical and management capacities of impact-oriented companies so they can align with the standards required by investors and access specialized funds. Additionally, it will work on developing capacities for Entrepreneurship Support Organizations (ESOs), such as incubators, accelerators, universities, and chambers of commerce, so they can offer more effective and tailored support to impact entrepreneurs.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
