Investment Amount (USD)	\$ 7.50 million
Grant Amount (USD)	\$ 7.50 million
Project Cost (USD)	\$ 7.50 million

Project Description

According to the IDB, the general objective of the program is to improve effective access to health services with a focus on prevention and primary health care. To achieve this purpose, the following specific objectives have been proposed: (i) increase the effective insurance of vulnerable populations; (ii) strengthening of the primary care model to increase quality services and prevention and promotion schemes; and (iii) development of the Unified Health Information System. These objectives seek to improve the health status of the population.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
