| Project Cost (USD)      | \$ 400.00 million                      |

### Project Description

The general objective of the program is to help reduce the gap in the provision and quality of productive and social infrastructure services and increase competitiveness and economic growth. The specific objective of the program is to help increase private investment in the provision and management of productive and social infrastructure, through the consolidation of public policy for enlisting private sector participation at the national and subnational levels. This loan operation is the first of two consecutive single-tranche operations that are linked technically but will be financed separately under the programmatic policy-based loan (PBL) modality.

### Investment Description

- Inter-American Development Bank (IADB)

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
