### **Project Description**

According to the Bank's website, this project finances the design, construction, operation and maintenance of a multipurpose port facility located in the Gulf of Urabá, Antioquia, Colombia, under a 30-year concession contract. This will include (i) an offshore deck with 4 berths; (ii) a 5.9km viaduct and access road that connects the offshore deck with the inland terminal; and (iii) 32ha of inland terminal / logistic facilities.

## **Investment Description**

• Inter-American Development Bank (IADB)

#### **Contact Information**

No contact information available at time of writing.

#### **ACCOUNTABILITY MECHANISM OF IADB**

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
