Project Description

According to the IADB, the general objective of the Program is to contribute to reducing the vulnerability of the inhabitants of Cartagena de Indias to flood events and inadequate sanitary conditions in a fiscally sustainable manner. The specific objectives are: (i) to increase access to urban drainage services for both the local and migrant populations; (ii) to increase access to and improve the quality of drinking water services for both the local and migrant populations, and to increase access to sanitation services; and (iii) to strengthen the Municipality's capacity to generate its own revenue.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
