Project Description

According to the IADB, the program's overall objective is to promote Monteria's resilient and sustainable urban development by strengthening the municipality's fiscal sustainability and creating the conditions for private sector participation in urban development. Its specific objectives are to: (i) improve urban and environmental conditions in the intervention area along the Sinu River waterfront, consolidating the riverfront as a safe, resilient, and city-integrated public space; (ii) strengthen the institutional capacities of the Mayor's Office for territorial planning, land management, and the preparation of strategic urban projects, thereby creating conditions for private investment participation; and (iii) strengthen the City's capacity to generate its own-source revenues.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
