Accelerating High-Potential SMEs through Access to Human Capital

#### **Project Description**

The project's end goal is to help high-potential SMEs in Colombia accelerate growth and create quality jobs. To this end, the project will strengthen the BizCorps model, which addresses the human capital constraints faced by high-potential growth-oriented SMEs by providing them with access to high-quality business advisory services.

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
