### IADB-CO-T1409

Mitigation of Greenhouse Gas Emissions through Renewable Energy Projects in ZNIs

#### **Quick Facts**

Countries	Colombia
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2015-12-15
Borrower	Government of Colombia
Sectors	Energy, Finance, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.50 million
Project Cost (USD)	\$ 0.60 million

#### **Project Description**

The objective of this program is to support Colombia's actions to improve access to energy in isolated zones and promote access to clean energy sources, while emissions of greenhouse gases (GHGs) are reduced by testing a model of innovative financing for renewable energy projects in isolated zones.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
