Support to the Water and Sanitation Sector Through the Application of AquaRating

Project Description

The objective of this TC is to promote efficiency in water and sanitation utilities through the use of AquaRating (a voluntary and universal system that offers a comprehensive
assessment of the performance of water and sanitation services). The specific objectives are: (i) to support the application of AquaRating performance assessment tool in at least 5 water and sanitation utilities, so this TC will serve to fund the implementation activities while SECO's (Swiss State Secretariat for Economic Affairs) contribution is agreed and approved; (ii) to strengthen the capacity of FINDETER (Financiera de Desarrollo Territorial S.A.) and other sector institutions to promote efficiency; (iii) to promote dialogue about utilities performance among national and regional sector institutions.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
