Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.15 million

Quantifying female demand for flexible working hours in the labor market in Bogota

Project Description

The aim of this technical cooperation (TC) is to help close the existing knowledge gap, to inform the design of public policies that encourage female labor participation. For this purpose, an intervention in Colombia whose objective is to understand the impact of flexibilization in labor contracts for female participation, will be evaluated experimentally. Specifically, it is sought to estimate the impact of offering flexible jobs hours to women of low socioeconomic status in Bogotá in their decisions to participate in the labor market.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
