Project Description

According to IADB website, the Disruptores Medellín project proposes to identify local young people with exceptional characteristics for creative entrepreneurship, and linking them to a platform of opportunities that allows them to enhance their skills, vocation and affinity in order to generate an extraordinary local capacity to lead high impact enterprises within the creative industries. The aim of the project is to identify, prepare and empower young talent with a creative and disruptive profile to be leaders in the innovation processes that allow closing the gaps of social and economic exclusion in the city.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
