Project Description

The project aims to expand and improve access to ECD services to support children aged 0-5 and their families, including pregnant and breastfeeding mothers, of an extremely vulnerable segment of the Venezuelan migrant population known as "Los Caminantes" (the walkers). First, we will increase the network of Child-Friendly Spaces (CFS) operating across the four main routes established in the country in 5 additional temporal facilities. Second, through face-to-face activities and behavior change interventions, supported by the establishment and promotion of a mobile-phone based application, we will provide parents with key information on child development during their way across Colombia.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
