Investment Amount (USD)	$ 0.75 million
Project Cost (USD)	$ 0.75 million

Project Description

The general objective of this TC is to implement a strategy for strengthening the rural road network in Colombia. It is then sought to support the Colombia Government, through the National Planning Department and the Ministry of Transportation, in strengthening the rural road network. The specific objectives contemplate: (i) contribute to the construction of the rural road network inventories from the use of new technologies such as artificial intelligence and satellital images; (ii) prioritize regional integration routes and corridors that promote productive development in coordination with the Ministry of Agriculture and identify investment needs; (iii) implement the use of new materials for the construction of roads of the rural road network through pilots; (iv) develop knowledge products that help generate evidence and contribute to the development of local capacities; and (v) development of a communication strategy with mayors and governors.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
