Project Description

With a Hub of Second Job Opportunities, the aim is to identify and develop the potential of people about to serve their sentence and those who have already paid their sentence and been released from prison and create a structured process to effectively connect them with sources of formal employment , ensuring, on the one hand, that they develop the skills (hard and soft) to perform successfully in the job and, on the other hand, socializing in companies to reduce the stigma of people who have been in prison and offer advice to companies for the socialization of people in their new job.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
