Support to the reforms agenda that strengthen Colombia's integration into global value chains and boost economic recovery

Project Description

The objective of the TC is to support the development of a series of policy reforms and programs aligned with operation PBL CO-L1268, necessary to fulfill its objective of strengthening Colombia's integration into global and regional value chains to promote economic reactivation and job recovery. Specifically, it will promote (i) the improvement of the business climate to attract efficiency seeking foreign direct investment; (ii) the deepening of trade facilitation and integration strategies to improve the country's competitiveness in international markets; (iv) the productive and export reactivation of the business sector for its effective insertion in the global value chains.

Support to the reforms agenda that strengthen Colombia's integration into global value chains and boost economic recovery

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
