Consolidating Connect to Educate: Multimodal Early Education in Colombia, Phase-II

Project Description

The objective of this Technical Cooperation (TC) is to support the Comision Intersectorial para la Atencion Integral de la Primera Infancia (CIPI) to consolidate a scalable version of Connect to Educate: A Multimodal Early Education strategy (CpE), aimed at providing remote (multimodal/multichannel) quality ECD services in rural areas or areas with limited connectivity. CpE will deliver educational content to children and their families and offer a remote learning/training solution for existing ECD workforce and preschool teachers. Through a first iteration cycle, Phase-I (CO-T1467) has conceptualized and developed a proof-of-concept version of CpE. This TC will consolidate the strategy's components by developing, piloting, and validating the scalable version of CpE (Phase-II).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
