IADB-CO-T1646

Participatory environmental zoning for environmental planning and territorial governance

Project Description

According to the IADB, the objective is to formulate participatory environmental zoning to guide environmental management and strengthen territorial governance in municipalities with high deforestation, as well as the implementation of initiatives that contribute to the stabilization of the agricultural frontier, the generation of sustainable productive alternatives and the adequate management and protection of Areas of Special Environmental Interest.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
