Project Description

The objective of this Technical Cooperation (TC) is to support and provide technical assistance to the Government of Colombia (GoC) to achieve an economic growth with a transition to a Net Zero economy while closing the gap in public services, in this case, in the energy sector. At the same time, supporting the country to achieve a strong, green, and inclusive economic recovery after the COVID-19 pandemic. This will give the tools to public institutions to adapt themselves to changes that energy transition is creating in the sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
