Project Description

According to the IADB, the TC aims to enhance data interoperability and management for an efficient and secure exchange of migration information among entities that produce or consume related data, supporting evidence-based policies and decision-making processes for migrants' and host communities' socioeconomic integration. The TC will contribute to the consolidation of an integrated migration information system in Colombia in the short and medium term. Its specific objectives are to: (i) facilitate the interoperability of migration information among various systems and entities, as well as the interinstitutional coordination for agile, timely, and secure management of interchangeable information; and (ii) strengthen existing digital tools and institutional capacities to ensure that the information exchanged is accurate and up to date.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
