Project Description

According to the IADB, the main objective of this CT is to support the Government of Colombia in the structuring of a national Just Energy Transition Platform (JET), through: 1) technical studies to define the investment portfolio of the Colombian JET Platform and its contribution to Colombia's NDCs; 2) economic studies to analyze the benefits and impacts of the different dimensions of the JET at the sectoral and territorial level; and 3) design of recommendations about the necessary public policy and regulatory framework adjustments to promote an ambitious TEJ.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
