Project Description

According to the IADB, the mission's objective is to exchange best practices in urban planning by studying the innovative strategies of Curitiba, particularly their long-term vision, public transportation, integrated urban development, and resilience planning. The mission aims to adapt these practices to Cali, with a focus on citizen participation, addressing contemporary urban challenges like climate change and socioeconomic inequality. The visit will also foster collaboration with local entities, securing co-financing for travel and accommodation, and strengthen technical cooperation between the Inter-American Development Bank and the "Plan Cali 500+" project.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
