Zero deforestation cocoa: A model for sustainability and market access for agroforestry cocoa producers in the Colombian Amazon

Project Description

According to the IADB, the technical cooperation's objective is to strengthen the cocoa value chain in the Colombian Amazon through: (i) promoting georeferenced zero-deforestation traceability, (ii) encouraging the transition to biodiverse agroforestry systems (AFS) that increase productivity and diversify income, and (iii) fostering associative strengthening and commercial linkages.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
