Project Description

According to the IADB, the objective of this technical cooperation is to exchange best practices and experiences in comprehensive solid waste management between the city of Buenos Aires and Bogota and Cali. This exchange encompasses aspects such as recycling, waste containerization, organic waste treatment, and collaboration with recycling cooperatives. The mission aims to identify innovative and adaptable solutions to enhance operational efficiency and environmental sustainability in both contexts.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
