Project Description

According to the IADB, the objective is to promote low-carbon, sustainable, and climate-resilient livelihoods for communities located in environmentally important areas of the Amazonian municipalities in Meta and Guaviare, reducing deforestation and fostering sustainable development through an integrated territorial approach. The project combines interventions that support the implementation of territorial and environmental planning instruments; strengthen governance processes; and generate economic opportunities for local communities by integrating small and medium-sized producers, entrepreneurs, and businesses into alternative economies and sustainable value chains.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
