Investment Amount (USD)	\$ 0.35 million
Project Cost (USD)	\$ 0.35 million

IADB-CO-T1813

Development of financing and monitoring mechanisms to support the Implementation of

Project Description

According to the IADB, the objective of this TC is to support the Ministry of Environment and Sustainable Development in developing a technological platform to monitor investments in nature aimed at implementing the goals of Colombia's Biodiversity Action Plan (NBSAP). The development of the monitoring platform will include strengthening governance and institutional capacity, as well as creating new regulatory frameworks and agile methodologies for data integration. In addition, support will be provided for the development of innovative financial mechanisms to mobilize public and private capital for biodiversity protection, following the indicators and reporting process of the Global Biodiversity Framework and Colombia's NBSAP.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
