Project Cost (USD)	\$ 0.13 million

Project Description

According to the IADB, this TC aims to strengthen the institutional capacity of key state entities responsible for implementing the multipurpose cadastre policy in Colombia--particularly the Land Administration System (ANT), Agustin Codazzi Geographic Institute (IGAC), Superintendency of Notaries and Registry (SNR), and the National Planning Department (DNP)--as well as subnational governments, while building technical capabilities for the effective use of cadastral information. It focuses on enhancing information systems, spatial data management, and cadastral processes, and on developing capacities within governing bodies and municipalities for the generation, maintenance, and use of cadastral data.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
