Metro de Bogota Impact Evaluation: Baselines and Early Effects

Quick Facts

Countries	Colombia
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Colombia
Sectors	Infrastructure, Technical Cooperation, Transport
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.31 million
Project Cost (USD)	\$ 0.31 million

Project Description

According to the IADB, this Technical Cooperation aims to secure the baselines and data infrastructure needed to rigorously evaluate the impact of Bogota's Metro Line 1 on the built environment, firm dynamics, and neighborhood composition, and, where credible comparisons can be established, to generate early causal evidence on corridor transformation during the anticipation and construction phases, along with ex-ante welfare predictions from a quantitative spatial model. This TC seeks to enhance the understanding of how large-scale rail investments transform cities, informing future urban transport projects across Latin America and the Caribbean (LAC).

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
