IADB-CR-L1145

Project Description

The objective of this operation is to strengthen fiscal sustainability by controlling expenditure and modernizing the tax system. The specific objectives are: (i) improving the effectiveness of the macrofiscal institutional framework; (ii) increasing the efficiency of tax system management; and (iii) improving efficiency in public expenditure management (employment, administrative reform, and judicial pensions). This is the second of two operations under the programmatic policy-based loan modality.

Investment Description

• Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
