Road Infrastructure and Urban Mobility Program: resilient connectivity and urban interventions

Road Infrastructure and Urban Mobility Program: resilient connectivity and urban interventions

Quick Facts

Countries	Costa Rica
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Costa Rica
Sectors	Infrastructure, Transport
Investment Type(s)	Loan
Loan Amount (USD)	$ 225.00 million

Project Description

According to the IADB, the objective of the project is to contribute to the competitiveness, accessibility and connectivity of the country through the environmentally sustainable improvement of strategic infrastructure within the High Capacity Road Network of the country, as well as complementary urban interventions.
The specific objectives are:
(i) reduce vehicle operating costs on the intervened roads;
(ii) implement a sustainable public-private financial mechanism for operation and maintenance improvements;
(iii) promote road safety; and
(iv) increase the infrastructure resilience to climate change.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
