| Investment Amount (USD) | \$ 400.00 million                                                  |

### Project Description

According to the IADB, the overall development objective of the project is to help mitigate the impact that a severe or catastrophic natural disaster or public health event could have on the country's public finances. The specific development objective is to improve the financial management of natural disaster and public health risks by increasing stable, efficient, and rapidly accessible contingent financing to cover extraordinary public expenditures aimed at assisting the population affected by emergencies resulting from natural disasters and public health events.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
