Sectors	Energy, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.42 million
Project Cost (USD)	$ 0.50 million

Project Description

The main objective of this TC is to support the compliance with the environmental and social requirements established for the new ICE CCLIP line (CR-X1014) and the execution of the loan operation CRL1070. The specific objectives of the CT are: (i) to provide technical advice to ICE's Business Line regarding environmental and social management issues related to the development and implementation of projects associated with the CCLIP. In particular, it will support the compliance with the environmental and social requirements established in the Environmental and Social Action Plan (ESAP) and other contract documents of the CCLIP loan, as well as other projects of ICE's Business Line.; and (ii) provide advice to the IDB in monitoring environmental and social issues associated with the CCLIP in order to follow up the implementation of the ESAP and other actions associated with the loan agreement.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
